## DAY 2: Route du Rhône bike path / Sion

After a hearty European breakfast, set out on the tranquil Route du Rhône bike path, following the course of the Rhône upriver. As you get underway, you leave the steep jagged cliffs of the Dent de Morcles behind. These dramatic rocky slopes mark the westernmost reaches of the Bernese Alps, dropping precipitously into the Rhône Valley. Before you, the exhilarating vistas of Switzerland's majestic and towering range open up.

Near Evionnaz, traverse a serene nature reserve beloved by the residents of the Valais canton before pedaling into a valley blanketed with lush vineyards. The Valais is Switzerland's third-largest wine region. Some of the classified Grand Crus of Sion – like the Fendant and the Syrah—may sound familiar to you.

Your ride along the river is leisurely and never dull. You cycle past small villages on the gentle slopes of the valleys and spin past farms and orchards of apples, apricots, pears, cherries, strawberries, and raspberries. Even the legendary Valais headwind, which caresses the valley from late morning to evening during good weather, cannot tarnish this incredibly scenic ride into this hidden corner of Switzerland.

As you approach Sion, the capital of the Valais canton, the two towering rock bastions of Tourbillon and Valère greet you from their lofty perches. There'll be time to stroll the pedestrian streets of the Old Town, following the VBT optional walk prepared by your trip leaders, rich in culture and history and embellished with stone fountains and lively cafés. After lunch on your own, you travel back to your hotel, where you have time to rest in the shade of huge sequoia trees, walk on the trails of the landscaped park, or soak in the thermal pools, where your entry is included.

Dinner is at the hotel's restaurant tonight.

Today's Ride Choices

Morning: Lavey to Saillon – 24 km (15 miles) | Saillon to Sion – 18 km (11 miles) | Sion walk – 2 km (1 mile)

What to Expect:

Today's ride is easy and flat, almost entirely on a well-paved bike path. The headwind that generally starts blowing around mid-morning up the valley in good weather may slow down your pace. Expect some traffic at the end of the long option entering the city of Sion, where drivers are generally used to and gentle with riders.

Today may offer an additional independent ride for experienced cyclists. Ask your trip leader for details.

Cumulative Distance Range: 18 – 42 km (11 – 26 miles)

Included Meals: Breakfast, Dinner

## **DAY 3: Villeneuve on Lake Geneva / Montreux / Travel to France**

After breakfast, you cycle out of Saint-Maurice into the Chablais region, the spectacular alpine area straddling Switzerland and France. Your route again follows the Rhône River, pointing you toward Lake Geneva. As you ride out of the village, you may glimpse the sharp, soaring peaks of the Dents du Midi chain. Despite your mountainous surroundings, today's route is very relaxed, tracing a pleasant valley on well-paved bike paths and passing Swiss chalets, manicured gardens, and postcard-perfect ponds.

At Le Bouveret, just before the river pours into Lake Geneva, your route gently bends right onto the Rhône bridge. Here, you ride into the shaded wetlands of Les Grangettes. This peaceful nature reserve hosts a profusion of biodiversity, including many migratory birds. This morning's pleasant spin ends at the eastern tip of Lake Geneva in Villeneuve, or New Town, which in fact boasts a charming Old Town of cobbled streets and inviting cafés – the ideal place for a stop and a short stroll. After, you cycle or shuttle to Montreux.

If you choose to ride, follow a lakeside route, passing by the historic Chillon Castle and continuing to Montreux on the way. You end your ride in this popular resort town on Lake Geneva where you can admire elegant villas and lovely gardens. Stop at Place du Marché, where a statue of Freddie Mercury gazes out over the lake. For the fans of the rock band, Queen, the free visit to the Exhibition Space of the Mountains Studios inside the casino may reveal a highlight! The lake promenade is the perfect spot to

enjoy lunch on your own. Then continue by private motorcoach into France and the picturesque village of Talloires, hugging the shores of scenic Lake Annecy. Settle into your hotel here, a hidden gem away from the crowds, and set beautifully on the water with magnificent views of the Massif des Bauges to the west and La Tournette and Col de Forclaz to the east. Celebrities like Mark Twain and Paul Cezanne stayed in this historical and century-old former abbey. The sublime Saint Germain abbey and chapel perches high above on a distant hillside.

Tonight, stroll into historic Talloires for dinner on your own. You might try a Raclette with the famous quality cheeses of Haute-Savoie and match it with local wine, like Chignin or Apremont.

Today's Ride Choices

Morning: Lavey to Villeneuve — 34 km (21 miles) | Villeneuve to Montreux — 7 km (4 miles)

What to Expect:

Today's ride is easy and mostly follows a flat paved bike path until Villeneuve. When the weather is good, a mid-morning to evening headwind blows up the valley and can slow down the ride. From Villeneuve to Montreux, the route, for the first two miles, is a bike lane shared by pedestrians, and then on a regularly trafficked slightly rolling road. The Villeneuve to Montreux option requires some caution and is therefore rated easy/moderate.

Cumulative Distance Range: 34 — 41 km (21 — 25 miles)

Included Meals: Breakfast

## **DAY 4: Lake Annecy loop / Paccard Bell Foundry / Medieval Annecy**

Begin your ride by cycling south from your hotel in the Haute-Savoie region. Your focus is the breathtaking Lake Annecy—Europe's cleanest lake thanks to protection measures enacted in the 1960s—and its namesake city. Your loop follows a well-paved bike path past the staggering sheer cliffs of the Bauges Mountains that seem to surge dramatically out of the waters.

As you approach the city of Annecy, follow the sign to the Paccard Bell Foundry if you wish. Over seven generations, this family business has cast more than 120,000 bells for institutions all over the world, including the bells that ring out from the Notre Dame Cathedral in Paris.

Later, arrive in historic Annecy, called the “Pearl of the French Alps” for its stunning setting between mountains and lakes. There’ll be time to explore its pedestrian streets lined with charming canals, bridges, and archways that might bring Venice to mind. The Old Town is full of unique charms and historic buildings. Admire the Palais de l’Isle, a 12th-century prison on an islet in the River Thiou, the Château d’Annecy, the 16th-century Cathedral of Saint-Pierre and the Pont des Amours, the Lover’s Bridge. Savor lunch on your own in an inviting café, perhaps watching swans glide on the river, and enjoy a *crème glacée*—locally made ice cream—for dessert.

Shuttle back to the hotel, or join today’s longer option that completes a circumference around the lake. Pass a popular lake beach, perhaps dipping your toes in the crystal-clear water, and several lakeside villages steeped in charm. In the distance, catch sight of the Aravis Mountains, famous for the hairpin turns and steep bends featured on the Tour de France.

Later, relax and take a dip in the lake, stroll the vegetable gardens by the cloister, or treat yourself to the hotel spa. Dinner is at the hotel gourmet restaurant, a delicious meal of French specialties.

The area, especially before Annecy, is very popular and bikers may encounter skaters and walkers on the path. The afternoon ride is easy although it includes one climb. Note: in the summer it may be crowded with a number of bikers. In the villages, attention must be paid to cars.

Leaving the southern tip of Lake Annecy, you cycle along a quiet, smooth bike path as the Bauges Range rises up on one side and the Beaufortain soars on the other. Gorges and caves in the distance tell that the region has been inhabited by man since the Neolithic Age.

After a slight climb at Ugine, you leave the Haute-Savoie and meet the Arly River, which you follow to Albertville. Gateway to some of the best international ski areas of the Alps, Albertville hosted the 1992 Winter Olympics. Following your included lunch, you walk to the neighboring medieval City of Conflans. A French historic site and monument, the picturesque Cité de Conflans is sheltered behind 14th-century walls and offers views of the Combe de Savoie valley, and the Bauges and Chartreuse mountains like no other. In the afternoon continue cycling the new paved bike path that lines the Isère River into fertile farmlands. Here it is common to meet local farmers caring for their *pépinnières*, or vine nurseries. Your ride ends in the shaded pond district called Lake de Carouge.

Later settle into your French château, then visit the 15th-century cellar and savor a wine tasting before a delicious dinner overseen by your gracious hosts. It's the perfect end of a beautiful day and an ideal venue to sample the region's finest wines.

Note: the tour starting on September 14, 2025, you will be staying at Château de Candie in nearby Chambéry where you will dine here for two nights and experience a winetasting in the village of Apremont the next day. Your cycling routes will vary a little today and tomorrow.

From your château, you cycle along gently rolling and scenic country roads, meandering through small charming villages and vineyards. You skirt the base of Mont Granier, a gigantic crag and the icon of this green region called Chartreuse, to the peaceful small Lake of Saint-André. Then you follow the course of the small L'Albanne River into picturesque Chambéry, boasting a rich history as the capital of the Kingdom of Savoy from the 13th to the 16th centuries. The Château des Ducs de Savoie still dominates the cityscape, nestled in a maze of medieval alleyways in the city center. You pause for lunch on your own here, taking time to also admire the 15th- and 16th-century estates along the shop-lined rue Croix-d'Or.

Your return ride follows a different easy bike path. Avid riders may follow a scenic route with an opportunity to enjoy wonderful views of the distant Tarantaise peaks, some reaching more than 11,000 feet. The Col du Galibier in the sunny Maurienne valley with its 8,681 feet ranks with the Col de l'Iseran as one of the highest mountain passes in France. There stands a monument to Henri Desgranges, who initiated the Tour de France cycle race in 1903. Epic climbs are sure to come to mind as you experience a bit of the captivating cycling of the Alps without the big hills.

Back at your château, there'll be time to relax by the swimming pool and prepare for a final festive dinner featuring French specialties of the region.
