The coastline between Hue and Hoi An is one of the most spectacular stretches of landscape in the country. It is here that the mountain range running through central Vietnam reaches down toward the South China Sea, affording stunning views of pristine coast on one side and towering mountains on the other. The Lang Co peninsula and the nearby Hai Van (Ocean Cloud) Pass form a natural border between the city of Da Nang and Thua Thien Hue province. If the weather allows, excellent views can be taken in from the top of the pass all the way to Hoi An.

Starting from the outskirts of Hue, pedal through local communities where you see small children being driven to school on the backs of motorbikes and older children cycling along next to you.

Then, travel up the Hai Van (Ocean Cloud) Pass, stopping at the top to take photos of the breathtaking views on both sides of the 1,600-foot (487.7-meter) mountain ridge. Those who like a challenge may choose to climb the pass by bike. There is a second ride option in the countryside after lunch, or you may shuttle back to the seaside resort for some well-deserved rest and relaxation.

Later, take part in a walking tour of Hoi An's Old Town, a UNESCO World Heritage site.
